

# Shadow Slice:

## Interior Shadow Analysis & Sun Study Tool for SketchUp

- Version: 1.0.0
- Developer: Febhouse
- Compatibility: SketchUp (Optimized for the ArchiDiagram workflow)

### How it Transforms Your Workflow:

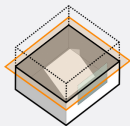

#### 1. Interior Natural Light Analysis

Shadow Slice makes the ceiling transparent but keeps the shadows solid. This allows you to look inside and analyze natural light distribution throughout the entire house without changing the actual lighting conditions.

## Interior Shadow Analysis & Sun Study Tool for SketchUp

- Version: 1.0.0
- Developer: Febhouse
- Compatibility: SketchUp (Optimized for the ArchiDiagram workflow)

### How it Transforms Your Workflow:

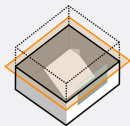

### 2. Smart Section Compensation

This tool reconstructs the parts of the building removed by the Section Plane. The compensated portion is transparent to the eye but still blocks sunlight (except for glass), ensuring that your interior lighting analysis remains physically accurate.

### Interior Shadow Analysis & Sun Study Tool for SketchUp

- Version: 1.0.0
- Developer: Febhouse
- Compatibility: SketchUp (Optimized for the ArchiDiagram workflow)

#### How it Transforms Your Workflow:

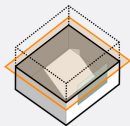

#### 3. Section-Based Shadow Study

Specially designed to analyze interior shadow behavior directly within a section view. It is the perfect solution for documenting how sunlight penetrates a space for professional design reports.
